GENCO
SMASH!
GENCO
NO!
KA-THOOM!
THE HORRIBLE BIO-WEAPONS OF GENCO WILL NOT BE BUILT THIS DAY; THE EGG WILL BE TAKEN HOME. AND THE DELICATE BALANCE OF NATURE IS RESTORED ONCE AGAIN BY GODZILLA, KING OF THE MONSTERS!
16

GODZILLA®
KING OF THE MONSTERS

He began life as a Godzillasaurus—millions of years ago when dinosaurs roamed the Earth. Exposed to radiation in the mid 1950's, Godzilla—as he came to be called—transformed into a towering monster capable of delivering a devastating atomic blast with his breath. Since then, Godzilla has menaced the cities of Japan and fought off many seemingly unbeatable adversaries, earning him the title, "The King of the Monsters".

MOTHRA™

Hatched from an egg that fell from space, Mothra fires an ultra-sonic wave beam from his antennae of considerable destructive force, and the poisonous powder stored in his wings can temporarily paralyze the muscles in Godzilla's body, and neutralize Godzilla's atomic blast.

RODAN™

Rodan is believed to be the last remaining Pterodactyl. The fastest of all the monsters, Rodan can fly at speeds in excess of Mach 5, creating intense sonic booms; shockwaves from which can destroy anything in it's path.

GHIDORAH™

Engineered by The Earth Union Organization in the year 2204 as a bio-weapon with which to destroy Japan, three Dorats were sent back in time to the 1940's where they fused into the three-headed Ghidorah! But the EUO's plan to destroy Japan was soon put to an end by the mighty Godzilla!

MECHA-GHIDORAH™

After a losing battle with Godzilla, Ghidorah lay at the bottom of the ocean. The Earth Union Organization salvaged the battered bio-weapon and gave it new life as Mecha-Ghidorah—an even more powerful Cyber-Monster—and returned him back in time to face Godzilla!

MECHA-GODZILLA™

In 1992, the Godzilla Force recovered the remains of the decimated Mecha-Ghidorah. Learning the secrets of this advanced Cyber-Weapon, the Godzilla-Force built the amazing Mecha-Godzilla to defend Japan against Godzilla's attacks.
